

Fit for purpose.

Whatever the final finish, iTe has the correct adhesive for your flooring project.

The iTe Products® range of flooring adhesives ensures the perfect finish, and avoids health and safety issues with lifting carpet tiles and flooring. Free of VOCs and complying with all GBCSA requirements, our range of adhesives contains a number of solutions tailored to specific flooring choices.

The installation of resilient flooring calls for an evaluation of all the factors that play a role in the lifetime of the floor covering. iTe Products broadly categorises four main areas for consideration in identifying the correct flooring adhesive for your specific project.

Substrate Considerations, manufacturer regulations, environmental considerations and project specific considerations all play independently important roles in making an informed adhesive selection.

iTe Products® has addressed these important factors in developing the GRIPiTe® range of “fit for purpose” adhesives that meet all stringent technical requirements while at the same time satisfy ease of application to minimise any potential problems.

GRIP iTe®

A REVOLUTION IN FLOORING ADHESIVES

April 2021

GRIPiTe® V10

PRESSURE-SENSITIVE
CARPET ADHESIVE

GRIPiTe® V10 is a pressure sensitive adhesive, designed for backed carpet tiles. **GRIPiTe® V10** contains no VOC's and is therefore fully compliant with the GBCSA's requirements for a "Green" adhesive. **GRIPiTe® V10** is available in 20Litre plastic containers.

GRIPiTe® V20

GENERAL PURPOSE
CARPET ADHESIVE

GRIPiTe® V20 is a general-purpose carpeting adhesive, designed for needle punch broadloom and tiles. **GRIPiTe® V20** is water based and contains no VOC's which fully complies with the GBCSA's requirements for a "Green" adhesive. **GRIPiTe® V20** is available in 20 Litre plastic containers.

GRIPiTe® C60

SOLVENT FREE
HIGH-PERFORMANCE
CONTACT ADHESIVE

GRIPiTe® C60 Contact Adhesive is a powerful solvent free two-way stick adhesive. It has a short open time and is suitable for use with PVC or Vinyl Flooring, LVT's, Rubber Flooring, Needle Punch Carpeting and most floor and wall coverings. **GRIPiTe® C60** is safe for use on many solvent-sensitive materials. **GRIPiTe® C60** is non-flammable, solvent free and completely safe for use in confined, poorly ventilated areas and has a very low odour emission. **GRIPiTe® C60** is not harmful to the applicator. **GRIPiTe® C60** is water based and contains no VOC's.

GRIPiTe® V30

HIGH-PERFORMANCE
FLOORING ADHESIVE

GRIPiTe® V30 is a general-purpose vinyl flooring adhesive. Designed for semi-flexible vinyl tiles as well as fully flexible vinyl tiles and sheeting. **GRIPiTe® V30** is water based and contains no VOC's which fully complies with the GBCSA's requirements for a "Green" adhesive. **GRIPiTe® V30** is available in 20 Litre plastic containers.

GRIPiTe® V50

HIGH-PERFORMANCE
LVT ADHESIVE

GRIPiTe® V50 is a hard-set high performance specialised LVT (Luxury Vinyl Tile or Plank) adhesive. **GRIPiTe® V50** is water based and contains no VOC's which fully complies with the GBCSA's requirements for a "Green" adhesive. **GRIPiTe® V50** is available in 5 Litre and 20 Litre plastic containers.

GRIPiTe® C60^{SD}

SOLVENT FREE
HIGH-PERFORMANCE
CONTACT ADHESIVE

GRIPiTe® C60SD Static Dissipative Contact Adhesive is a powerful solvent free two way stick adhesive with static dissipative properties. It has a relatively short open time with bonding capabilities for Vinyl Wall Cladding, Skirtings, profiles and floor coverings on absorbent and non-absorbent substrates internally.

GRIPiTe® V30^{SD}

HIGH PERFORMANCE
STATIC DISSIPATIVE
FLOORING ADHESIVE

GRIPiTe® V30SD Static Dissipative and Conductive Flooring Adhesive is a high bond strength static dissipative floor coverings adhesive. It has conductive properties which enable the discharge or dissipation of electrical charges which build up in vinyl flooring to a discharge earth leakage point. The adhesive can be used with copper or aluminium strips connected to an earth leakage point. **GRIPiTe® V30SD** is available in 20 Litre plastic containers.

GRIPiTe® H80

MULTIPURPOSE
HYBRID ADHESIVE

GRIPiTe® H80 is a one-part silicone modified polymer hybrid adhesive designed for bonding various materials such as Artificial Turf, Engineered Wood and Composite Rubber sports floors. **GRIPiTe® H80** is moisture curing, which makes it resistant to any residual moisture in the concrete. **GRIPiTe® H80** has very high bond strength and will prevent any delamination or breaking loose from the substrate provided there is no delamination in the substrate itself. The adhesive retains slight flexibility for its lifetime, and will not harden or break down.

The **GRIPiTe®** range of adhesives is manufactured to comply with the standards required for their specific uses.

Our warranty is based on the substrate being sound, dry and free of contamination. All application is to be carried out in strict compliance with the applicable data sheet as issued. The correct notched trowel is supplied with each bucket of adhesive.

iTe Products® further warrants that the products are manufactured to strict quality control standards and that the products supplied are free of defect. We cannot be held responsible for failure due to excessive moisture, flooding or the substrate failing for any reason, or application of the adhesive in a manner not suited to the circumstances.
